

DRAWING AMENDMENTS

It is proposed that the drawing sheet containing FIGS. 3a and 3b should be replaced with a drawing sheet in accordance with the accompanying copy, containing FIG. 3a and a replacement FIG. 3b. The only difference between the replacement FIG. 3b and the previously proposed FIG. 3b is that the orientation of the element 12 has been changed so that the angle C is now equal to the angle B. Since this proposed drawing amendment is being submitted by facsimile transmission, the changes are not illustrated in red.
